Lesson for April 17

PETER'S GREAT CONFESSION

LESSON TEXT—Matt. 16: 13-24. GOLDEN TEXT—Thou art the Christ, the Son of the Living God. PRIMARY TOPIC—Peter Pleases Jesus.

JUNIOR TOPIC—Confessing Our Faith in Jesus. INTERMEDIATE AND SENIOR TOPIC—Confessing Christ Openly. YOUNG PEOPLE AND ADULT TOPIC—What think ye of Christ?

The disciples had been with the Lord for several years. They had heard His wonderful words and witnessed His mighty works. Various opinions were extant about Him. Since Jesus was soon to go to the cross it was necessary for the disciples to have a definite and true conception of Him. In order to help them into the right conception, He provoked this confession from Peter as the spokesman of the group of disciples.

1. Peter's Confession (vv. 13-16).

1. How provoked.
Two questions of Christ put to the disciples called forth this great confession.

(1) Whom do men say I, the Son of Man, am (v. 13).

1. He first inquired for the opinion of the people concerning Him. As a wise teacher He knew that this would help crystallize the view of the disciples. The people recognized Jesus as a teacher or a prophet, with more than human authority and power. Today, as then, there is a diversity of opinion among the people as to Jesus Christ. The multitudes today recognize Jesus as an unique personality and as having been a great teacher, but that which offends them is His deity.

(2) "Whom say ye that I am?" (v. 15).

This question involved the personal opinion of the disciples concerning Him. To be able to tell what others think of Jesus is not enough. There must be definite, correct and personal belief in Him. Personal belief is worth infinitely more than the knowledge of what others think, for upon personal belief hinges character and destiny.

2. What Peter's confession involved (v. 16).

Two vital things, the Messiahship and deity of Jesus. "That which Jesus called forth from Peter is the burning question of today. 'What think ye of Christ?' is the question that must be answered by everyone.

3. Christ's commendation of Peter (v. 17).

He pronounced him blessed. Truly he was blessed, for he both possessed and confessed Christ.

4. The New Body, the Church, Announced by Christ (vv. 18-20).

Christ declared His intention of bringing into existence a new body, to the members of which He will give eternal life and into whose hands He would entrust the keys of the Kingdom. Peter was to have a distinct place in this body. Christ declared that Peter should be the foundation stone in His church. Christ is the chief corner stone upon which the church is built. Christ's person and Messiahship were confessed by Peter and on this rock (trunk confessed) he laid the foundation of the apostles and prophets (Eph. 2:20). All believers are living stones of this house (1 Pet. 2:5). The keys entrusted to Peter were used on the day of Pentecost and again in the case of Cornelius.

5. The Cross the Way to the Throne (vv. 21-23).

From that time Jesus began to show unto the disciples how that He must go unto Jerusalem and suffer many things, be killed and raised again the third day. This indeed startled the disciples. They did not yet realize that redemption was to be accomplished through the passion of the cross. So unwelcome was this announcement that Peter cried: "This shall not be unto thee." Peter later saw through this darkness to the glory of the hilltops. A new hope then filled his heart (1 Pet. 1:3, 4). Many are yet stumbling over the doctrine of salvation and redemption through the suffering of the cross. Salvation by blood is hated by the devil.

IV. The Cost of Discipleship (v. 24).

To follow Christ means to suffer. It means to turn one's back upon the world.

1. There must be denial of self.

There is a wide difference between self-denial and the denial of self.

2. Take up His cross.

This cross is the suffering and shame which lie in the path of loyalty to God.

3. Follow Christ.

This means to have the mind of Christ; to be like Christ. Christ will come in glory to reward all such.

HERE IT IS!

The automatic
Orthophonic Victrola

Plays 12 records without stopping!

THE greatest forward stride since the invention of the Orthophonic Victrola itself. Plays twelve records without stopping. You merely fill the "magazine"—turn the starting-lever—and listen to an hour of delightful music, without operating effort on your part!

The mechanism is almost human. It puts the record on the turn-table—plays it, takes it off—places it in a drawer—puts on the next record and so on, through twelve selections. Plays a complete symphony straight through. Furnishes dance music without anyone's having to stop and change records.

Continuous music by the world's foremost artists while you dine . . . at bridge parties . . . for dancing . . . for programs of any nature, planned in advance. You simply play—and relax! Music of your own choosing, furnished by the amazing Orthophonic Victrola—the instrument that has astounded musicians and music-lovers the world over.

Beginning Monday, we will demonstrate this really remarkable instrument. See it work, and marvel at American inventive genius! Hear it play, and thrill to its tonal realism! Come to our store any time Monday or thereafter—the sooner the better.

Demonstration begins Monday. Come in

A black and white illustration. On the left, a vintage car, possibly a Ford Model T, is shown from a side profile, facing right. It has a boxy body, large spoked wheels, and a spare tire mounted on the side. On the right, a hand is holding a round pocket watch. The watch face is visible, showing a dial with numbers and hands. The illustration is done in a simple, graphic style with bold lines and stippling for shading.

A black and white photograph showing a close-up of a curved, textured surface. The surface has a mottled, grainy appearance. In the foreground, there is a dark, irregular shape that looks like a shadow or a piece of fabric draped over the edge. The lighting is soft, creating subtle gradients of gray.
